(What is Three to the second power?)" is the math problem we are solving here. In mathematical terms, 3 is the base and 2 is the exponent as follows: 3^2 The problem above (3 to the 2nd power) means that you multiply 3 by itself. In other words, $3 * 3$. When we do that, we get the answer as follows:

What is 3 to the 2nd power? - exponentcalculator.net

Apparently there is a lot of research indicating that three seconds is the "magic" window in MANY human and animal behaviors, from hugs to goodbye waves to babies' babbling. Go read this quick article in Science. It's short, fun, and interesting.

Analysis in the Three Seconds of Now - P3

In words: 8^2 could be called "8 to the power 2" or "8 to the second power", or simply "8 squared" Exponents are also called Powers or Indices. Some more examples: Example: $5^3 = 5 \times 5 \times 5 = 125$. In words: 5^3 could be called "5 to the third power", "5 to the power 3" or simply "5 cubed"

Exponents

What is -9 to the 2nd power

"People say that what we're all seeking is a meaning for life. I don't think that's what we're really seeking. I think that what we're seeking is an experience of being alive, so that our life experiences on the purely physical plane will have resonances with our own innermost being and reality, so that we actually feel the rapture of being alive."

The Power of Myth Quotes by Joseph Campbell

The following is a list of definitions relating to conversions between microseconds and seconds. What is a microsecond (μs)? A microsecond is a unit of time. The symbol for microsecond is μs .
