sickle cell is a genetic abnormality affecting the blood. The red blood cells in sickle cell patients experience a diminished capacity to carry oxygen. A crisis occurs when the red blood cells become hypoxic and collapse into a sickle shape. The deformation of the red blood cells causes the blood vessels to become clogged. The pressure in the blood

**Did the Ancient Celts Practise Human Sacrifice?**

Did the Ancient Celts Practise Human Sacrifice? Chapter 1 - Introduction There has been much written about the ancient Celts, and their religions or rites, which have often been said to include human sacrifice. Most writers seem to take such suggestions at face value, with many references to both allusions in the classical

**THE ANCIENT PATHS - Waterstones**

6 THE ANCIENT PATHS ends of the earth, where the sun and the souls of the dead plunge into the sea, he had followed rather than driven them, so that it was not entirely true to say that he had stolen the herd. He acted out of desires that were foreign to his mind but not his body. It was in the
