Corporate Governance for Fraud Prevention

A critical review of this evidence reveals that an opposite, "avoiding hypothesis" more aptly describes firms' cross-listing behavior with regard to corporate governance issues. If anything, more stringent regimes deter issuers, and there is evidence that insiders behave opportunistically with regard to the cross-listing decision.

Cross-Listing and Corporate Governance: Bonding or Avoiding?

In times of crisis such as the current COVID-19 pandemic and its economic and social repercussions, public governance matters more than ever. Governance arrangements have played a critical role in countries' immediate responses, and will continue to be crucial both to the recovery and to building a "new normal"
