Pro Tools - Music Software - Avid

Launching Pro Tools | First To launch Pro Tools | First software: 1 Make sure your audio interface (if any) is connected to your computer and powered on. 2 Do one of the following: † On Mac, click the Pro Tools First shortcut in your Dock (or double-click the application icon in Macintosh HD/Applications/ Avid/Pro Tools First).

Introduction to Pro Tools | First

Whenever you want to process tracks in Pro Tools — add EQ, effects, or dynamics processors — you use a plug-in. Plug-ins are audio-processing tools that change the sound of your original file. Some plug-ins permanently alter the original file and work offline (that is, processing happens without playing the session).
