INTERNATIONAL APPROACHES TO PHYSICAL EDUCATION: A COMPARISON
Written by: Peter Rattigan, PhD, Paul Blair, PhD, & Clive Hickson, PhD.. As the United States has moved towards a standards-based approach to education, including physical education (PE), we have been interested in looking at how other countries approach their physical education curriculum and instruction.

Where does the American education system stand in comparison to the world? In many countries around the world, 15-year-olds take part in the “Program for International Student Assessment”(PISA).

Education Systems Around The World: A Comparison

Time allocated for physical education within Australia varies from age to age with pupils. Younger pupils are allocated 20-30 minutes of activity per day within schools. Older pupils are expected to take part in 100 minutes of PE or sport per week (Riley, 1997). Within the UK however some schools only allocate one hour per week of physical ...

(PDF) Benefits, need and importance of daily exercise

Most countries agree that the arts,
physical education, health, ethics, life
skills should also be covered. The most
obvious source of variation between
countries at the elementary/primary
level lies in the teaching of languages
other than the national language. (In
those cases where there is more than
one national language, it is generally the
