284 Winchester Load Data - Nosler
Hand Loading in the U.S. .284 Winchester brass is readily available for hand loading. Outside of the U.S., Winchester brand brass can be ordered by importers however, it can be easier to obtain and re-form Norma or Lapua 6.5-284 brass - ironic considering that the original cartridge is exceptionally well suited to long range competitive shooting.

.284 Winchester - BallisticStudies.com
The cost of reloading the .284 Win is roughly \$.07 more per round than that of the 6.5-284. The .284 uses a grain or two more powder than the 6.5-284, and 7mm bullets cost about \$6.00 more per 100-count box.

Record-Setting .284 Win F-Classer
By Pete Petros-Lead Reloading Technician, Sinclair International. After hearing about great results that shooters have been having with the original .284 Winchester I decided to re-barrel and chamber my factory Savage F-Class 6.5mm X .284 after 1200 rounds of ¼ MOA accuracy had opened up a bit.

The cost of reloading the .284 Win is roughly \$.07 more per round than that of the 6.5-284. The .284 uses a grain or two more powder than the 6.5-284, and 7mm bullets cost about \$6.00 more per 100-count box.

.284 Winchester - Dally Bulletin
The .284 Winchester was introduced in 1963, designed specifically for the Winchester Model 88 lever action and Model 100 100 auto-loading rifles. It was intended to produce similar ballistics to the .270 Winchester and .280 Remington, but with an overall cartridge length more or less equal to the .308 Winchester, which allowed it to function in short-action rifles.

.284 Winchester (using Sierra bullets) | Load Data Article
As far as I know, aside from Winchester, no other major company has ever loaded factory ammunition for the .284. According to the second edition of the Sierra Reloading Manual their sleek 140 grain boat-tail spitzer bullet can be driven to a MV of 2400 fps by 46.3 grains of IMR 4350 powder, and 2900 fps by 54.9 grains of IMR 4350.

284 WINCHESTER | Norma
When the .284 Winchester was introduced, wildcatters had a field day necking it up and down. .243" diameter bullets proved to be a good choice for long range shooting, and today I understand that reloading dies in 6mm-284 outsell dies for the regular .284 Winchester. Evidently the 6mm-284 fills a need.
