Ian S. Anna L. Peterson. University of California Press, 2001. ISBN 0 520 22655 0 (Paperback) The underlying theme of Being Human: Ethics, Environment, and Our Place in the World is that a population explosion and the mismanagement of finite resources are soon to impact us all in dramatic fashion, and that nothing short of a new religion -- one beyond the "living earth" Gaia hypothesis -- offers hope of salvation.

Being Human examines the complex connections among conceptions of human nature, attitudes toward non-human nature, and ethics. Anna Peterson proposes an "ethical anthropology" that examines how ideas of nature and humanity are bound together in ways that shape the very foundations of cultures. Peterson discusses mainstream Western understandings of what it means to be human, as well as alternatives to these perspectives, and suggests that the construction of a compelling, coherent ...

Being Human: Ethics, Environment, and Our Place in the ...

This essay explores what it means to be human and how those unique characteristics relate to the digital age. Humor and ethics both rely upon higher-level cognition that accounts for unstructured and unrelated data. That capability is also vital to decision-making processes—such as jurisprudence and voting systems.

Ethics is concerned with rights, responsibilities, use of language, what it means to live an ethical life, and how people make moral decisions. We may think of moralizing as an intellectual...

Ethics and Morality | Psychology Today

Ethics are a social construct and partially arbitrary. At certain points in history, owning slaves and beating your wife was considered ethical. Human beings are capable of any behavior they can imagine and then perform. Ethics is not a limit on human behavior, it is merely a classification or description of behaviors.

Essay on Being Human | Cram

Ethics is a branch of philosophy that is responsible for studying the principles that govern the conduct of an individual. Ethical principles depend on the situation in which a person encounters and varies from one individual to another. 1 - Acceptance One of the ethical principles is acceptance of everything that is different.

20 Examples of Ethics and Morals in Daily Life | Life Persona

Ethics matters because (1) it is part of how many groups define themselves and thus part of the identity of their individual members, (2) other-regarding values in most ethical systems both reflect and foster close human relationships and mutual respect and trust, and (3) it could be "rational" for a self-interested person to be moral, because his or her self-interest is arguably best served in the long run by
