The language of your product is important when communicating with a global audience. Translation and localization are two different levels of adaptation. #UX #L10N #I18N #multilingual.

Translation and Localization

What does video subtitling consist of? Subtitle translation is only one of the stages of creation. Once the translation is complete, subtitles have to be added to the video. When adding subtitles to a video, several rules must be observed, e.g. subtitle length, display time, correct timing, font, text colour, and many other factors.
