Underwater Earth commenced work back in 2010 with a simple, single-minded vision - to reveal the ocean to the world. The ocean, representing over two-thirds of the world's surface area, critical to the planet's health and wealth, is out of sight and therefore out of mind. How can anyone love and care for something they cannot see and cannot understand.

Underwater Earth Limited

Formed only in conditions of extreme pressure, it is composed of 1.5 percent water and appeared to confirm that the Earth's insides are very, very wet. "It translates into a very, very large mass...
