SOURCE: vacuum hose diagram got a I had this problem with my '93 Ford Probe. What happened was the shaft coming out of the vacuum solenoid was onected to a plastic arm for the valve that rotated for where you want the air to go.

### Diagram of Ford E450 cutaway vacuum lines - Fixya

A detailed examination of all connectors, wiring and vacuum hoses can often lead to a repair without further diagnosis. Performance of this step relies on the skill of the technician performing it; a careful inspector will check the undersides of hoses as well as the integrity of hard-to-reach hoses blocked by the air cleaner or other components.

The diagrams I am posting are pretty bad. But I would recommend you check all vacuum hoses near the firewall. If all is good a very known common fault is the climate control head. The vacuum lines go through the head and after some time develop an internal vacuum leak. The third image is the vacuum connector that attaches to the control head.
